

Status of Revised Annual Professional Performance Review (APPR) ***9/1/11***

The Elmira City School District is currently in collective negotiations with the Elmira Schools Supervisory and Administrative Council (ESSAC) to implement a new performance evaluation system for administrators consistent with New York Educational Law 3012 for the new Annual Professional Performance Review (APPR) System. Once the APPR document is completed, the Board of Education will review the documents and take action on them. The documents will then be posted on the District's web site.
